Testing Duel Duo

This test will verify that the Duel Duo See All Bots button reveals all bots contained within the database.

Steps

1. Open Assessment-qa-devOps in Source code editor.
2. Run nodemon to start the server
3. Open web browser and enter http://localhost:3000
4. Click the See All Bots Button
5. Click the Draw button
6. Select Bots
7. Duel
8. Select the See All Bots Button

Test Postconditions

- All bots should be visible when the see all bots button is selected
- All bots should vanish when another button is selected
- Bots from draw should match bots from see all
- After a duel see all bots should still show all bots with no duplicates
